Since its inception as a preschool, TCA has continued to prosper and develop into a fully accredited, full-service college preparatory academy, providing students in grades Pre-K through 12th grade an excellent education for world change. The graduates over the past 32 years reflect Trinity Christian Academy's passion for graduating students who are successful in colleges, universities, and in the community at large. Trinity Christian Academy's high academic and spiritual standards promote the growth of a student's spiritual, intellectual, social, and physical development, resulting in a well-roundedness that equips them for post-secondary success.

Mission Statement:

Trinity Christian Academy ministers to students, while providing them an excellent education for world change. We are committed to education that is based on the principles of God's Word. In this way, we can train, prepare, and equip young people to make a difference in their world.

Trinity Christian Academy Facts:

TCA does not discriminate on the basis of race, color, national, or ethnic origin in the administration of its educational, admissions, or other school-administered policies or programs. The ethnic enrollment and diversity of TCA is a representation of the community we serve.

TCA offers College Preparatory, Honors, Advanced Placement, and Dual Enrollment courses to assist students in meeting future academic goals and opportunities. The average class size is 15-20 students in grades K-5 and 20-25 students in grades 6-12. TCA has an international student program in which students from various countries across the globe are part of the student body at TCA, earning high school credits to further their own academic goals. Countries that are represented include Curacao, The Dominican Republic, the Bahamas, Italy, and Bangladesh.

All administrators, faculty, and staff are born-again Christians who attest that God has called them into the ministry at TCA and are committed to serving as exemplary Christian role models. Our highly qualified full-time faculty, teaching core curriculum subjects hold bachelor's degrees in education.

Courses are set in 50-minute periods (7-course period possibilities in a day).
